## 03339967333

$30^{\circ}$ trouser pieces, 2 and 3 m m.

Diameter A for 2 mm : $\varnothing 100-\varnothing 1000 \mathrm{~mm}$. Diameter A for 3 mm : $\varnothing 150-\varnothing 1000 \mathrm{~mm}$.

Trouser pieces are welded and made of 2 and 3 mm sheet metal (s).
Trouser pieces with $\mathrm{A}=\mathrm{B}=\mathrm{C} \leq 350 \mathrm{~mm}$ are supplied for assembly with pull rings [f.b]. Trouser pieces with $\mathrm{A}=\mathrm{B}=\mathrm{C} \geq 400 \mathrm{~mm}$ are supplied for assembly with flanges [m.fl].
Produced as straight trouser pieces when $\mathrm{A}=\mathrm{B}=\mathrm{C}$.

State A, B and C dimensions when ordering.

## Calculating L1 and L2:

$\mathrm{L} 1=0,5 \times \mathrm{A}$
$L 2=\cos 30^{\circ} \times A+100$

[^0]
[^0]:    Example:
    $A=B=C=350$
    $\mathrm{L} 1=0,5 \times 350=175$
    $\mathrm{L} 1=175 \mathrm{~mm}$
    $L 2=(0,866 \times 350)+100=403,1$
    $\mathrm{L} 2=403 \mathrm{~mm}$
